FRIDAY MORNING SEPT 11, 1863.

Quartz Mining in Boise.—From Mr G Robbins, who has spent the last year in prospecting the various ledges in the upper country, we learn the following particulars in relation to the quartz mines in Boise. The Pioneer Ledge is situated about three miles north west of Placerville and crosses Granite Creek and California Gulch, both streams below the ledge affording the richest placer diggings in the Basin. On the main discovery claim of the Pioneer Ledge, owned by Messrs Hart & Co, Mr Robbins has been engaged in sinking a shaft, which is now forty five feet deep but abandoned on account of foul air. From this shaft two men have carried loose dirt four hundred yards to the creek and panned out in three weeks $1,470. The company are now engaged in running a tunnel from the water level so as to intersect the shaft fifteen feet lower. South west of the Pioneer, on the main Granite Creek, Mr Robbins has discovered and located another lead, which he has named the "Corbett Lead," in honor of our enterprising fellow-citizen, H W Corbett, Esq. From this lead rich specimens of blue sulphuret, containing gold have been taken out and brought to this city. South-west, on the main Pioneer, Messrs Moore & Co. are running a tunnel, which is now seventy five feet deep. They expect to strike the lead within the next fifty feet. Other companies are organizing and prospecting on other portions of the ledge.

Mr Robbins brought down with him three hundred pounds of quartz rock, which can be seen and examined by all who are interested. He is of the opinion that quartz mining will be the principal feature of mining operations in the Boise country, and that another year will develope the untold richness of these lodes.

A Manly and Remarkable Letter from the President

The following is the substance of the letter from the President to the Union mass meeting held at Springfield (Ill.) September 3d, 1863:

There are those who are dissatisfied with me. To such I would say, You desire peace and you blame me that you don't have it. But how can we attain it? There are but three conceivable ways. First—To suppress the rebellion by force of arms. This I am trying to do. Are you for it? If you are, so far we are agreed. The second way is to give up the Union to dissolution. I am agreed to this if you are. You should say so plainly. If you are not for force nor yet for dissolution, there only remains some imaginable compromise. I do not believe any compromise embracing the maintenance of the Union is now possible. All that I learn leads to a directly opposite belief. The strength of the rebellion is its military. That army dominates the country and all the people within its range. Any offer of terms made by any man or men within that range, in opposition to that army, is simply nothing for the present, because such man or men have no power whatever to enforce their side of the compromise if one were made with them. Compromise, to be effective, must be made either with those who control the rebel army or with the people first liberated from the domination of that army by the success of our army. Allow me to assure you that no word or intimation from the rebel army or from any of the men controlling it in relation to any peace or compromise has ever come to my knowledge or belief. All charges or intimations to the contrary are deceptive and groundless, and I promise you that if any such proposition shall hereafter come it shall not be rejected or be kept secret from you. You dislike the emancipation proclamation and perhaps would have it retracted. You say it is unconstitutional. I think that the Constitution empowers its Commander in Chief with the laws of war in time of war. Now the most that can be said is that slaves are property. Is there—has there ever been—any question that by the laws of war property, both of enemies and friends, may be taken when needed? And is it not needed when our taking it helps us or hurts the enemy? Armies would even destroy the enemy's property when they cannot use it, and even destroy their own to keep it from the enemy. Civilized belligerents do all in their power to help themselves or hurt the enemy, except a few things regarded as barbarous. The proclamation is law, and valid or not valid. If it is valid it cannot be retracted any more than the dead can be brought to life. Some of you profess to think that a retraction would operate favorably to the Union. Why better after retraction than before the issue? There was more than a year and a half of trial to suppress the rebellion before the proclamation was issued, at least one hundred days of which passed under an explicit notice that it was coming unless averted by those in revolt returning to their allegiance. The war has certainly progressed as favorably since the issue of the proclamation as before. I know, as fully as any one can know the opinions of others that some of the commanders of armies in the field, who have given us our most important victories, believe the emancipation policy and colored troops constitute the heaviest blows yet dealt to the rebellion, that one at least, of these important successes could not have been achieved unless it had been for the aid of black soldiers. Among the commanders holding these views are some who have never had any affinity with what is called Abolitionism, or with Republican party politics, but who hold them purely as military opinions. I submit their opinions as being entitled to some weight against the objections often urged that emancipation and arming the blacks are unwise as military measures and were not adopted as such in good faith. You say that you will not fight to free negroes. Some of them seem to be willing enough to fight for you, but no matter. I use them exclusively to save the Union. I issued the proclamation on purpose to aid in saving the Union. Whenever you shall have conquered all resistance to the Union, if I shall urge you to continue fighting it will be an apt time then for you to declare that you will not fight to free negroes. I thought that in your struggle for the Union, to whatever extent negroes should cease helping the enemy to that extent it would weaken the enemy in his resistance to you. Do you think differently? I thought that whatever negroes can be got to serve as soldiers leaves just as much less for white soldiers to do in saving the Union. Does it appear otherwise to you? But negroes like other people act upon motives. Why should they do anything for us if we will do nothing for them? If they stake their lives for us they must be prompted by the strongest motive—even the promise of freedom, and the promise made must be kept.

Oregon Names.—We have received an excellent letter from one of our most venerable and intelligent citizens upon the origin of names of places here which the press of news matter forces us to postpone for a day or two.

SPECIAL DISPATCHES TO THE DAILY OREGONIAN

LATER FROM THE EAST.

Dates to September 7.

New York, Sept 4.—The steamers *City of the South* and *Union* have arrived from Charleston Bar. The former [illegible] Sullivan's Island on the 21st and when abreast of Fort Moultrie she opened fire. The fort replied, assisted by the batteries on Sullivan's Island and forts Wagner and Gregg. Gillmore's batteries kept firing on Wagner. Sumter was silent though the rebel flag still waved over its ruins. The result of the fight was not known at the time the steamer left. Passengers on the *Union* say that Wagner was silenced and the Monitors passed by Moultrie without hindrance.

Fortress Monroe, Sept 3.—The steamer *Spaulding* has arrived from off Morris Island. On Monday stormy weather had checked operations at Charleston. Everything was in readiness to continue the attack as soon as the weather became favorable. When the *Spaulding* left the *Weehawken* was shelling fort Gregg. On Saturday the rebels raised another gun on the ruins of Sumter, but it was silenced on the same day. The operations of Gillmore are progressing vigorously. His approaches are so near Wagner that the combatants throw shells at each other. On Wednesday we drove the rebels from their rifle pits on the left of our advance line and took 78 prisoners.

Chicago, Sept 4.—At the Vermont election on Tuesday, John B. Smith (republican) was elected Governor by from 6,000 to 8,000 majority. The State Senate is unanimous republican, and three Congressmen, also republican.

Correspondence from Burnside's army, of August 28th, says the troops are in good spirits and eager to advance. A party of rebels who had captured some of our men, were overtaken by our cavalry and 60 taken prisoners. A force of cavalry under Col. Graham, also intercepted to day some rebels near Cumberland who seemed to be advancing to make a raid into Kentucky. Graham beat them and captured 40.

Cincinnati, Sept 4.—The *Commercial's* dispatch says: This morning Speedman was delivered to the civil authorities by order of Gen Cox. He is in the sheriff's custody, awaiting the disposition of a writ of *habeas corpus* by Judge Haynes. The Provost Marshal will not resist. Speedman will be examined before the Mayor on charge of shooting with intent to kill Lieut. Waterman.

Bridgeport (Ala) Sept 4th.—Burnside telegraphs that he took Kingston on the 2d. Part of Minty's brigade went up simultaneously with Burnside's army. Burnside says he met with but little serious opposition. All East Tennessee except the Chattanooga region is being evacuated by the rebels and is now free. Everything is working splendidly with both armies, and every obstacle will be overcome in a few days.

New York, Sept 4th.—The schooner *Ella* lately arrived from Nassau with pine apples proves to be the pirate *Retribution*, and was seized yesterday. The steamship *Fulton* from Port Royal Sept 1st, left Charleston Bar 5 o'clock the same day. Gilmore had succeeded in running a parallel against Fort Wagner. The *Ironsides* had been withdrawn from the attack on Moultrie and batteries on Morris Island. Charleston had not been bombarded for ten days.

San Francisco, Sept. 5.—Telegrams received to day by Gen. Wright and Collector Low from Secretarys Chase and Stanton. The following is one: To Hon F. F. Low and Gen. Wright: Accept for yourself and the loyal people of California my cordial congratulations on the great victory just achieved. I hope to send you back speedy response from Charleston. Gilmore keeps moving on their work. The news received within an hour leaves no room to doubt the result. His troops are in fine spirits. His force is ample and his skill and energy unsurpassed. The storms have for several days prevented operations by the navy. Burnside is actively pressing forward in East Tennessee, Rosecrans on Chattanooga, Banks and Grant busy. While our armies are thus moving on the enemy's works we rejoice that California has put in such a blow at the rebellion.

E. M. STANTON.

Yreka, September 5.—The election in this county has resulted in the success of the entire Republican ticket except supervisor. The Democratic candidate for Senator has a majority of votes cast in the county, but the soldier vote defeats him.

Later by the Sierra Nevada

New York, Sept 2.—A Memphis letter, dated Aug 25th, denies the report of the death of Pemberton, but says some of his men having sworn to kill him, he has been taken to Richmond under a strong guard. Fully two-thirds of his army are in the field under Hardee, who is in command at Mobile.

St Louis (Mo) Sept 2.—A State Convention of the Immediate Emancipationists was held at Jefferson City yesterday, at which resolutions were adopted providing for calling a Constitutional Convention to adopt an ordinance of immediate emancipation, requesting that Gen Butler be assigned to the command of the Department of Missouri, and advocating an amendment to the Federal Constitution which will prohibit slavery forever in the States to be admitted into the Union.

Chicago, Sept 3.—A special dispatch to the New York *Tribune* says: It is rumored among the politicians at Richmond that Robt M T Hunter is to be sent to Mexico as representative of the Southern Confederacy, in order to prepare the way for an offensive and defensive alliance between the Emperor of that country and the Government at Richmond. It is said this gentleman has received instructions for the immediate recognition of the future Emperor of Mexico in return for which it is hoped his Majesty will be led to recognize the Southern Confederacy. Hunter is now at Paris where he was sent nearly two months ago by the Government with a special mission to the Emperor of the French. The principal object of his visit there is however, to act conjointly with Slidell on all matters appertaining to the Mexican question, to give his support to all action of France, Austria, England or Spain having the defeat of the Monroe doctrine for its end, and to promise the co-operation of the rebel Cabinet in all measures tending to counteract the policy of the Federal Government on the Mexican question.

Louisville, Sept 4.—Five deserters from the 22d Kentucky Infantry were shot at Mumfordsville at noon to-day.

Cairo, Sept 4.—News from Fort Gibson, Indian Territory, has been received to the 20th August. Gen Blunt with an army 4,500 strong with 20 pieces of artillery, crossed the Arkansas river on the 22d and offered battle to Gen Cooper who had massed on his front 11,000 men. After a faint show of resistance the enemy commenced a retreat, which was soon turned to a disorderly flight. They abandoned all their property. General Blunt pursued them 100 miles south of the Arkansas to Perryville which is fifty miles from Red River. The Indian Territory is now clear of rebels. Gen Blunt is marching on Fort Smith, which will, doubtless fall without a struggle.

New York, Sept 5th.—Special telegrams from Washington this morning are extremely barren. The Secretary of the Treasury for some time past has been engaged in preparing new regulations for trade with the rebel States, suited to the altered condition of affairs, occasioned by the opening of the Mississippi river. These will be completed in a few days but may have to be submitted to the approval of the Generals commanding the Departments of the South before they will be ready for publication. [illegible] revenue from the public domain [illegible] nominal, [illegible] lands will be immediately advertised for sale.

A Morris Island letter of September 1st to the *Herald*, says: For two or three days past a new rebel battery on Sullivan's Island has been making fruitless efforts to annoy our men in the advanced trenches. The calibre of the gun employed is not certainly known but it is supposed to be one of the 11 inch guns taken from the *Keokuk*. The range of the gun is very good except in one very important particular, its range being short and only at long intervals a shot from it reached this island. Those thrown thus far have [illegible] solid shots, and have done no damage [illegible] than to the sand hills which they [illegible]. A great majority fell into the water [illegible] the beach. Four Monitors, *Passaic*, *Patapsco*, *Nahant* and *Montauk* [illegible] yesterday afternoon and engaged Fort Moultrie and the batteries on Sullivan's Island firing an occasional shot at Sumter. Wagner was engaged, the firing commencing at 4:30 in the afternoon, and for about two hours the fire was maintained with great intensity, particularly on the rebel side. The firing from Fort Moultrie was terrific. The heavy guns rattled off like [illegible] and scattered the water about the Monitors but did little damage. The heavy rifle and 15 inch shell of the iron-clads burst with effect over and in Fort Moultrie, and sent the earth whistling in all directions. Fort Wagner was repeatedly struck by the exploding shells and somewhat damaged. She fired but a few shots during the contest at the Monitors. Battery Gregg was exceedingly active and her heavy guns were in play from the first to the last of the engagement and made some excellent shots. The Monitors' shells went wildly on all sides and had no effect in silencing her guns. Fort Sumter was struck several times by the rifle shells from the *Passaic* and *Patapsco*, but besides detaching masses of loose masonry, did no further damage to the fort. After two or three hours the Monitors withdrew. The object of the attack has not been developed.

Some days since the enemy made a systematic effort to blow up and destroy the gunboats in Stono Inlet by means of torpedoes. Fortunately no serious damage was inflicted on the vessels by their infernal machines. One torpedo exploded a little astern of the *Pawnee* and blew her launch, which she was towing astern to fragments. A few moments later a tremendous explosion occurred on board the *Key*, a few rods below the *Pawnee* occasioned by another torpedo sent down at the same time. From facts since ascertained, it is certain that the rebels sent down on that night at least ten of these inventions three or four of which exploded and four were picked up. One drifted through the fleet and transports, and up Folly river, and exploded under the bows of the mortar schooner *C. P. Williams*, but occasioned no damage. The torpedo was precisely like those found in Light House Creek and go off at the slightest concussion.

The *Tribune's* Morris Island letter states that Wagner will be held to the last moment. The dead lie so thickly around her walls that the water from her shallow wells cannot be drank. If compelled by thirst, should some of the soldiers be so imprudent as to swallow it, the next day they are in the hospitals, and before the close of the week many of them are in their graves. Three attempts have been made to supply the garrison from Charleston, but thus far only a small quantity has been furnished, and only at midnight, or under cover of some dense fog in the morning, have any vessels been known to reach them for the past eight days. If the Monitors would only cut off the communication for one week longer, the fort would be in our possession and with Wagner, Gregg and the whole of Morris Island once ours the Stars and Stripes in a few hours would wave over Sumter. We are now within a hundred yards of Wagner, and by to-morrow our heaviest Parrott guns will be able to deliver their fire at a distance of 200 yards, into every embrasure commanding the beach and engaging one on every gun looking seaward.

St Louis, Sept 5.—Gen Schofield has issued an order forbidding armed bodies of men belonging to U S troops passing from Kansas to Missouri or vice versa, under any pretext whatever, and the military of Kansas and Missouri not in the U S service will not be permitted to pass from one State into the other, without express orders from the Dist Commander.

Louisville, Sept 7.—Gov Andrew Johnson in a speech at Nashville a few days since avowed himself unequivocally in favor of the abolition of slavery, and said the system of negro slavery had proved baleful to the nation by arraying itself against the interests of the institutions of the people and that the time had come when means should be devised for its eradication from Tennessee. He was in favor of immediate emancipation, if it could be, yet if it could not be obtained he was for gradual emancipation—emancipation at all events. He believed slavery a curse, and wanted to see it wiped out without delay. His speech was enthusiastically applauded by all hearers.

Cairo, Sept 5.—We have dates from Vicksburg to the 2d. Reports from the South are that Johnston's army is scattered along the road between Jackson and Mobile for 100 miles, as it was found impossible to support them in one body. 15,000 of Pemberton's troops refused to report at Demopolis the rendezvous for paroled troops. Gen Maurice is in command of the forces at Mobile. The whole male population white and black, are at work on the fortifications. Attempts have been made in portions of Alabama to hold meetings to agitate the subject of reconstruction. One held in Green county a few days since was dispersed at the point of the bayonet. The Mobile harbor defenses are said to be very strong. It is said there are several gunboats there in course of construction, which will be finished in about two months.

We have dates from Memphis to the 3d, and advices from Steele's expedition to the 29th of Aug and Duvall's Bluffs to the 31st. Gen Davidson with artillery and cavalry numbering about 8,000 men, moved from Brownsville Ark on the 27th and met a force of the enemy about 600 strong a few miles this side of Bayou Metoe. The enemy was posted on an eminence of quite difficult access, which commands the main road to the bridge over which Davidson was obliged to move. Heavy skirmishing ensued and continued till toward evening. The casualties, owing to the distance between the contending forces were light. Our loss in killed and wounded will not exceed 20. During the night Gen Davidson placed his guns in such positions as to completely command the enemy's works. On the morning of the 28th he opened with shot and shell. The rebel general commanding soon discovered the futility of attempting to hold his position and before the middle of the day he commenced falling back and before sunset not a rebel soldier, except prisoners were to be found on the north and east sides of Bayou Metoe. The rebel, after having gained the opposite side applied the torch to the bridge which was consumed. The enemy's loss in the fight was 100 killed and wounded with 200 prisoners. Our loss was 11 killed and wounded.

Gen Steele was at Duvall's Bluffs on the [illegible] but most of the infantry and artillery had gone towards Bayou Metoe.

By Steamer.—Our news by steamer and telegraph this morning fills so much space, that we have scarcely room for comment. The intelligence is favorable. Government currency keeps its value.—Andy Johnson has declared his adhesion to the policy of emancipation.—The President has rescinded the proclamation of November last, so far as to allow exports of live stock to be made on this coast, thereby civilly repudiating the [illegible] declarations of the Collector at Astoria, as to the action and purpose of the Administration.

Arrival of Sierra Nevada.—The steamer *Sierra Nevada* arrived at this port last evening about six o'clock. She brought up quite a number of passengers and six hundred tons of freight. The following is her memoranda and list of passengers:

Memoranda—Steamship *Sierra Nevada*, Francis Conner, Commander, left San Francisco Sept 7th at [illegible] A M [illegible] Columbia bar Sept 10th at 5 30 A M, arrived at Portland same day at 6 P M.

Passengers—Julius Goetz, Julia Dean Hayne, [illegible] H W Eddy, wife and two [illegible] G F MURDOCK, Purser.

Julia Dean Hayne.—This celebrated actress arrived on the steamer last evening from San Francisco, and will appear at the Willamette on Monday evening.

Arrivals.—The *Sierra Nevada* brought up a large number of passengers, among whom we were glad to welcome our old friend Mr [illegible] W Eddy and family.

Sailed.—The bark *Jane A Falkinberg* sailed [illegible] evening for Oak Point, to take in a cargo of lumber for the San Francisco market.

Sails To-morrow.—The steamer *Sierra Nevada* will sail for San Francisco by way of Victoria to-morrow evening at five o'clock.

To Shippers of Fruit.—Fruit will be taken to San Francisco on the steamer which leaves to-day for eight dollars per ton.

Military.—"Portland Guards" is the name of the new military company organized last night at the Council Room. They adopted a constitution and by-laws. Many prominent citizens are members of this company, and it cannot fail to prosper.

The Washington Guards had a drill last night.

Theatrical.—Mrs. Julia Dean Hayne will make her first appearance in this city at the Willamette theatre on Monday night next, on which occasion a splendid programme will be presented. The box office will be open all day to-morrow, thus giving an opportunity to secure seats two days in advance. Call early.

Rich Gold Diggings in the Willamette Valley.—From Mr J. Clark, of Scio, Linn county, who arrived in this city last evening to get supplies, we learn that a party of prospectors struck rich gold diggings in the Cascade mountains, about thirty five miles east of Scio, in the vicinity of the north fork of the South fork of the Santiam river. Mr Clark brought six ounces of gold dust from these mines which he sold to Humiston, Wilson & Co for [illegible] per ounce. Dr Smith, of Salem, and Messrs J Driggs and Wm May, of Albany, have also struck a quartz lode in the same locality, which is said to be very rich. On his way in Mr C met fifty or sixty miners on their way out to the diggings, they having already heard of them. If these reports are correct, we may look for a big rush to that locality, ere long.

California Legislature.—House of Representatives Union—71, democrats—9. Senate, Union—34, democrats—6. Union majority—90.

The First Trial for Treason.—Thomas Shacklett was convicted of treason against the United States in the U. S. Court at Louisville on the 22d inst. Judge Ballard pronounced the sentence as follows:

"In the exercise of the discretion, and under a full sense of my responsibility to God and my country, I have concluded to spare your life, but the magnitude of your crime demands that your punishment be severe. The judgment which I approve, and which the court now makes is that you be imprisoned and confined in the jail of Jefferson county, in the State of Kentucky, for ten years from this day, that you make your fine to the United States by the payment to them of ten thousand dollars, and that your slaves be free."

The Turkish Government is adopting all possible means to stimulate the growth of cotton in that country.

Sanitary.—The Ladies Oregon Sanitary Aid Society will meet at the M. E. Church in this city, Friday Sept 11th at [illegible] o'clock P. M. A full attendance is very desirable as business of importance is to be transacted.

MRS A C GIBBS, Sec'y.

NEWARK, OHIO, June 5, 1858.

Messrs A. L. Scovill & Co—Gents: It is with great pleasure that I inform you of the effects of DR. MOTT'S LIVER PILLS in my family. Four years ago I had the BILIOUS FEVER, although under the care of an old school physician who treated me with Calomel until I was salivated, and my tongue was much swollen and it was the cause of more pain than the disease itself. Finally he gave me up, and said that I could not live. I still lingered six [illegible], and finally got over that attack with a broken constitution [illegible] subject frequently to attacks of Rheumatism in my bones when exposed at least to cold and damp. Since that time I have had frequent similar attacks, and have by the use of Dr Mott's Vegetable Liver Pills, broken up the disease without having the system affected by the calomel. I would not be without [illegible] on any account.

English Punishment in India.

BLOWING SEPOYS FROM THE GUNS—A GRAPHIC DESCRIPTION.

The following description of a terrible scene in India is taken from Mr. Stephen Massett's book of travel, personal gossip and adventure, called "Drifting About," recently published. The sketch is entitled "Blowing away from the guns:"

The afternoon of the 15th of October it will be difficult for me to forget.

I was seated about one o'clock taking "tiffin" or lunch, in company with Lieut. Timm, of the E. I. C. service, chatting with him upon the probabilities of a good or bad house for the concert of the evening, when he remarked: "I fear your chances are rather slim, old fellow, to-night—for the fact is, it's my impression that we shall all be in or near kingdom come by to-morrow morning."

I asked him what he meant? He replied: "The Commander-in-Chief has just telegraphed from Poonah to the Colonel of the regiment here that the sentence is to be carried into effect upon the two ringleaders this afternoon, and at five they are to be 'blown away.'" Adding—"I fear the relatives will rise *en masse* and murder us all!" asking me at the same time if I had a "Colt."

I was too sick at the prospect to joke, or I'd have replied that I would like to run off on the back of one, if I could! So I replied that I had never carried any firearms in any of my travels, and that I didn't even know how to load a pistol.

"Well, well," he replied, "I've got a six barrelled one; you go on to the esplanade with me; we'll keep together—and if the worst comes to the worst, we'll die together."

With these reflections, and giving up all idea of "exhibiting" that night, we left the hotel for the scene of death.

I have before spoken of the beauty of the harbor and surroundings of this city, and the magnificence of its situation.

The harbor is certainly not inferior to any in the world, the beauty and splendor of its scenery are unrivalled, and, indeed, many think it surpasses the far-famed bay of Naples.

In what is called the fair portion of the year the vision is delightful amidst the fairy tracery of purple hills, and during the "monsoon" the sublimity of the tempest, and the storm careering in all the grandeur of the torrid zone, strikes awe into the inmost recesses of every heart.

As I gazed, the harbor looked calm, and still as an inland sea, which had never felt ebb or flow of tide; flags of every nation fluttered in the orient breeze, and, as the sun descended towards the horizon, the big city lay bathed in a sea of gold, and the glories of the setting luminary were painted in gorgeous crimson pictures on the western sky.

The Ghauts mountains, richly wooded to the base, showed in their gilded atmosphere their castellated summits, as if upon their tops Titans had reared their fortresses.

The nearer landscape, decked in milder beauty, exhibited the ever graceful palm; the hoary banyan tree that counts centuries as years; the stately nym, with leaves that whisper to the wind; birds with the most brilliant and glittering plumage flitted about; the cooling, gentle, rippling waves of the Arabian sea, as they kissed in broken murmurs the yellow beach, and the hum of a city numbering eight hundred thousand souls, spoke in solemn tones of the dreadful example which a mighty race was about to exhibit for the domination and the punishment of one inferior, treacherous and cruel.

I was standing on the esplanade, and the dread hour of five was fast approaching.

Out of every gateway from the fort natives and Europeans were thronging to the military parade ground, while from the native town, alley, street and lane disgorged their thousands.

Every nation under the sun had a representative there to witness the appalling spectacle so soon to occur.

At half-past four the troops composing the garrison moved to the ground. Of the English soldiery there were only some two hundred of Her Majesty's 95th Regiment, just arrived from the Cape of Good Hope; two hundred seamen—American and English—had hastily landed from the ships in the harbor, armed with musket and bayonet.

There were also a four gun battery of foot artillery, and three guns manned by the artisans of the Grand Arsenal.

The whole English force numbering only five hundred men—against which were some six thousand; near them was a group of English and American captains of merchants' ships, and numbers of the civilian population. The parade formed three sides of a square.

The base was occupied by the artillery at the centre; the right and left sides were composed of the 10th and 11th Sepoy regiments, to which the prisoners belonged.

Facing these Sepoys were placed three guns, behind which the artillerymen stood, with matches lighted, ready to meet with deadly ball the first movement towards revolt.

Between the six cannons, three pointing obliquely to either side, were placed at right angles to the base of the square the two guns assigned for the awful vengeance or justice of the hour. Between and in the rear of them were arranged the stern guard, and the condemned wretches whose lives were so soon to terminate.

Thanks to the courtesy of Brigadier Shoutt, commanding the garrison, and Captain William Walker, I was permitted to take my position within six feet of the right hand gun, and such a spectacle as I then witnessed will live in my memory forever.

There was no outward excitement such as attends ordinary public executions; no swaying to and fro of the multitude.

In all that vast assemblage of one hundred thousand human beings, a whisper would have broken the stillness.

The English officers rode along the lines silent and severe of aspect. The champ of their horses' bits, the clang of their sabres seemed loud and troublesome as they jarred the all pervading quiet.

At five o'clock the Brigadier rode in front of the death guns and for a moment the silence of the grave prevailed. It was only interrupted when a voice audible to the most distant of the listening multitude, read in tones, clear, solemn and firm the sentence of Court Martial.

In the language of Hindoostan, it smote the ear and hearts of the convicts.

Thus it was rendered to me:

"The Court having found you guilty of attending a seditious meeting in Bombay, and of having made use of highly mutinous and seditious language, evincing a traitorous disposition towards the Government, tending to promote rebellion against the State, and to subvert its authority (the above being in breach of the articles of war), sentence you, 'Drill Havidar Syneed Hoseen,' of the Marine Battalion, Native Infantry, and Private 'Mungull Guddrew,' of No. 8 Company, 10th regiment Native Infantry, to suffer death by being blown away from the muzzle of a cannon."

The two men were then ordered to divest themselves of their regimental jackets. This was quickly done; they were then marched between files of the European guard, each to a cannon's mouth, and there bound tightly with ropes.

The culprit Drill Havidar appeared composed, and assumed an attitude erect and even dignified, until he found himself in the grasp of the artillerymen.

He gazed imploringly upon the regiment to which he had belonged—expecting, I thought, that they might rush to his rescue.

He made a last appeal:

"Oh, Sahib! Captain Sahib!—pardon—dear—dear Captain!"

They stood before him motionless! and that guilty breast where sanguinary resolves had arranged the midnight slaughter of defenceless men, women and children, now heaved with the mental agony of the doomed conspirator.

While the two men were being bound not a syllable was uttered by the assembled crowd; the suspense lengthened seconds into minutes.

All eyes were turned for an instant from the prisoners to the native regiments—but they moved not.

A rattling of steel along the line gave notice that the Enfield rifle was prepared to visit mutiny with slaughter.

At the word "prime" fell upon the ear, I noticed the 10th Native Infantry shook, as by an electric thrill.

It was now quite evident they might have feared that at the next moment the deadly rifles might be levelled against their front.

Simultaneously with the loading of the infantry, the guns to the right and left of the criminals were pointed at the two native regiments, loaded to the muzzle with canister and grape—and there the gunners stood with signal match lighted.

From the ramparts at the fort four 68-pounders looked threateningly upon the scene.

When the final summons was given—the handcuffs and uniform jackets removed—and the English gunners were lashing the traitors with their backs to the cannon's mouth, it was really fearful to notice the wild despairing expression in the faces of the doomed.

There was another pause; again the silence became oppressive—thousands and thousands of eyes riveted their gaze upon the victims; and the heart of the strongest there stirred more quickly, when arose from Captain Bolton, of the Royal Artillery, the command:

"Let all retire from the guns—except the man with the portfires, at the word 'Fire'—apply the match."

When the word "Ready" was given by Captain Bolton—the gunners in a moment lighted their matches—the prisoners and the artillery men stood immovably as statues.

The awful word "Fire" rang out clear as a clarion note—the hammers descended on the caps—the smoke rolled upwards in sluggish clouds—the cannons spoke as in tones of thunder, and the air revealed by many a ghastly witness that retribution had been terribly visited upon those who had designed to revel and to dabble in the blood of massacre.

LATE DISCOVERIES IN PATHOLOGY show that very many of the diseases which afflict mankind arise from impurity of the blood. This has long been suspected, but is only lately known. In consumption, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Gout, Cancer, Ulcers and Eruptions, all arise in disordered deposits from the blood. Billious diseases and fevers are caused solely by its deranged unhealthy state, and even the decline of life follows a want of vitality in the blood. In view of these facts DR. AYER designed his *Cathartic Pill* especially to purify and invigorate the blood, and hence we believe to arise its unparalelled success in controlling and curing disease.—*Medical Journal.*

[OFFICIAL.]

LAWS OF THE UNITED STATES,

Passed at the Third Session of the Thirty-Seventh Congress.

[PUBLIC—No. 26.]

AN ACT to provide a temporary government for the Territory of Arizona, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all that part of the present Territory of New Mexico situate west of a line running due south from the point where the southwest corner of the Territory of Colorado joins the northern boundary of the Territory of New Mexico to the southern boundary line of said Territory of New Mexico be and the same is hereby erected into a temporary government by the name of the Territory of Arizona; *Provided,* That nothing contained in the provisions of this act shall be construed to prohibit the Congress of the United States from dividing said Territory or changing its boundaries in such manner and at such time as it may deem proper; *Provided, further,* That said government shall be maintained and continued until such time as the people residing in said Territory shall, with the consent of Congress, form a State government, republican in form, as prescribed in the Constitution of the United States, and apply for and obtain admission into the Union as a State, on an equal footing with the original States.

SEC. 2. *And be it further enacted,* That the government hereby authorized shall consist of an executive, legislative, and judicial power. The executive power shall be vested in a governor. The legislative power shall consist of a council of nine members and a house of representatives of eighteen. The judicial power shall be vested in a supreme court, to consist of three judges, and such inferior courts as the legislative council may by law prescribe; there shall also be a secretary, a marshal, a district attorney, and a surveyor general for said Territory, who, together with the governor and judges of the supreme court, shall be appointed by the President, by and with the advice and consent of the Senate, and the term of office for each, the manner of their appointment and the powers, duties, and the compensation of the governor, legislative assembly, judges of the Supreme court, secretary, marshal, district attorney, and surveyor general aforesaid, with their clerks, draughtsman, deputies, and sergeant-at-arms, shall be such as are conferred upon the same officers by the act organizing the Territorial government of New Mexico, which subordinate officers shall be appointed in the same manner, and not exceed in number those created by said act; and acts amendatory thereto, together with all the legislative enactments of the Territory of New Mexico not inconsistent with the provisions of this act, are hereby extended to and continued in force in the said Territory of Arizona, until repealed or amended by future legislation: *Provided,* That no salary shall be due or paid the officers created by this act until they have entered upon the duties of their respective offices within the said Territory.

SEC. 3. *And be it further enacted,* That there shall neither be slavery nor involuntary servitude in the said Territory, otherwise than in the punishment of crimes, whereof the parties shall have been duly convicted: and all acts and parts of acts, either of Congress or of the Territory of New Mexico, establishing, regulating, or in any way recognizing the relation of master and slave in said Territory, are hereby repealed.

Approved, February 24, 1863.

HELMBOLD'S

Genuine Preparation.

'HIGHLY CONCENTRATED'

Compound Fluid

EXTRACT BUCHU,

A POSITIVE AND SPECIFIC REMEDY

FOR DISEASES OF THE

BLADDER, KIDNEYS, GRAVEL

AND

DROPSICAL SWELLINGS.

This Medicine increases the power of DIGESTION and excites the ABSORBENTS into healthy action, by which the WATERY or CALCEROUS depositions, and all UNNATURAL ENLARGEMENTS are reduced, as well as PAIN and INFLAMMATION, and is good for

MEN, WOMEN OR CHILDREN.

HELMBOLD'S EXTRACT BUCHU

For Weakness arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory,	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the	Muscular System,
Hot Hands,	Flushing of the Body,
Dryness of the Skin,	Eruptions on the Face,

Pallid Countenance.

These symptoms if allowed to go, which this medicine invariably removes, soon follows

Impotency, Fatuity, Epileptic Fits,

IN ONE OF WHICH THE PATIENT MAY EXPIRE.

Who can say that they are not frequently followed by those "direful diseases,"

"INSANITY AND CONSUMPTION,"

Many are aware of the cause of their suffering, BUT NONE WILL CONFESS.

THE RECORDS OF THE INSANE ASYLUMS,

And the melancholy deaths by Consumption bear ample witness to the truth of the assertion that

THE CONSTITUTION,

once affected by Organic Weakness,

Requires the Aid of Medicine,

to strengthen and invigorate the system, which

HELMBOLD'S EXTRACT BUCHU

invariably does.

A Trial will Convince the most Skeptical.

FEMALES! FEMALES!! FEMALES!!

OLD OR YOUNG,

Single, Married or contemplating Marriage

IN MANY AFFECTIONS PECULIAR TO FEMALES, the Extract of Buchu is unequalled by any other remedy as in Chlorosis or Retention, Irregularity, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea or Whites, Sterility, and for all complaints incident to the Sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE!

(See symptoms above.)

No Family should be without it.

TAKE NO MORE BALSAM, MERCURY, OR UNPLEASANT MEDICINE FOR UNPLEASANT AND DANGEROUS DISEASES.

HELMBOLD'S EXTRACT BUCHU,

AND

HELMBOLD'S IMPROVED ROSE WASH

CURES SECRET DISEASES,

In all their Stages; At Little Expense; Little or no Change in Diet; No inconvenience;

AND NO EXPOSURE.

It causes a frequent desire and gives strength to Urinate, thereby Removing Obstructions, preventing and curing Strictures of the Urethra, allaying Pain and Inflammation, so frequent in the class of Diseases, and expelling all Poisonous, diseased and worn out matter.

THOUSANDS UPON THOUSANDS

Who have been the victims of Quacks

and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "POISON" has, by the use of "Powerful Astringents," been dried up in the system, to break out in a more aggravated form, and perhaps after marriage.

Use Helmbold's Extract Buchu

For all Affections and Diseases of the URINARY ORGANS, whether existing in MALE OR FEMALE, from whatever cause originating, and

NO MATTER OF HOW LONG STANDING.

Diseases of these Organs require the aid of a Diuretic.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC,

And it is certain to have the desired effect, in Diseases for which it is recommended.

Evidence

of the most Responsible and reliable character will accompany the medicines.

Certificates of Cures

From Eight to Twenty Years standing, with names known to science and fame.

"PHYSICIANS," PLEASE "NOTICE."

We make no "secret" of "Ingredients." HELMBOLD'S EXTRACT BUCHU is composed of Buchu, Cubebs Juniper Berries, selected with great care by a competent Druggist. Prepared in vacuo, by H. T. HELMBOLD, Practical and Analytical Chemist, and Sole Manufacturer of

Helmbold's Genuine Preparations.

AFFIDAVIT.

Personally appeared before me, an Alderman of the city of Philadelphia, H. T. HELMBOLD, who being duly sworn, doth say his preparations contain no narcotic, no mercury, or other injurious drugs, but are purely vegetable.

H. T. HELMBOLD.

Sworn and subscribed before me, this 23d day of November, 1854.
